## Have you heard of liposomal glycolic acid?

All the regenerating and renewing power of glycolic acid is now enhanced through nanotechnology

Guaranteed penetration levels and efficacy previously unattained.  
No irritation.

### Discover its anti-aging DOUBLE ACTION:

- ① **SURFACE (Free glycolic acid):**  
**MILD PEELING EFFECT.** Accelerates natural skin renewal to achieve a smooth skin and an even tone.  
**PROTECTS YOUR SKIN** from free radicals to slow down accelerated aging.
- ② **IN-DEPTH (Liposomal glycolic acid):**  
**STIMULATES THE ACTIVITY** of stem cells in your skin to reduce expression lines and wrinkles.

### Proven efficacy by scientific studies:

- ✓ Accelerates cellular exchange up to **50%\***.
- ✓ Excellent tolerance: **0% irritations\*\***.
- ✓ Dermatologically tested.

### the results

- Smooths and softens wrinkles.
- Evens out the skin tone.
- Removes blemishes and marks.

### DIRECTIONS

Apply morning and night over clean, dry skin with a gentle massage until the product is completely absorbed.

\*"Increase in cellular proliferation, after topical application of ACGLICOLIC".

\*\* Study conducted on 25 volunteers to assess the potential irritation of the product, 24 h after application.
