COMPREHENSIVE ANTI-AGING SKINCARE THAT ACTIVATES GENES OF YOUTH

Welcome to genocosmetics

SESGEN 32 is a comprehensive anti-aging line with technologically advanced active ingredients that restore signs of youth to your skin.

While other anti-aging products act on aging signs, **SESGEN 32** addresses the root problem: cellular aging.

And thus, the approach is unique and personalized:

- 1 **ACTIVATES** genes responsible for youth which detect signs of cell aging and carry out repairs.
- 2 **RESYNCHRONIZES** the cell's biological clock and renews the natural repair process, acting on wrinkles, blemishes and dilated pores. It reduces the sensitivity of reactive skin.
- 3 **PROVIDES ENERGY** to cells and also has antioxidant, moisturizing, repairing and regenerating properties.

results

In just a few days your skin will recover youth and vitality

- Signs of fatigue disappear.
- Wrinkles are diminished.
- Luminosity and skin uniformity increases.
- Improves firmness, hydration and texture of the skin.

DIRECTIONS

Apply morning and night on clean and dry skin with a gentle massage until the product is completely absorbed

Suitable for sensitive skin.

Dermatologically tested.
